

API SECURITY ASSESSMENT

AI-driven discovery, data-flow lineage and compliance-ready findings.

APIs are essential to how modern applications exchange data, and one of the fastest-growing attack surfaces. This assessment gives you a clear snapshot of your internal and external APIs: vulnerabilities, data exposure risk and compliance gaps, powered by eXate.

YOUR APIS ARE GATEWAYS. LET'S SECURE THEM.

WHY DIGITALERA

Powered by eXate

An AI-driven platform trusted by global banks.

3 tiers, sized to you

Essential covers up to 500 APIs, scaling to enterprise.

4 frameworks

Aligned to ISO 27001, PCI DSS, DORA and GDPR.

Discovery plus review

AI-driven discovery combined with manual review.

WHAT YOU CAN EXPECT

- A full inventory, including shadow APIs
- Visibility into where sensitive data flows
- Exposure through third parties and LLMs understood
- Compliance evidence for ISO 27001, PCI DSS, DORA, GDPR
- A roadmap you can act on

WHAT YOU RECEIVE

- ✓ Endpoint exposure report
- ✓ Data-flow lineage diagrams
- ✓ Compliance alignment summary
- ✓ Governance roadmap

How it's scoped

3 tiers: Essential (up to 500 APIs), Professional (full scan, lineage) and Enterprise (ongoing governance).

Right fit if your APIs handle regulated data and you can't fully account for where it flows, or you suspect shadow APIs.

Something else first if you want to test whether an API can be exploited (Penetration Testing) or you're mid-incident (call the emergency line).
