

TABLETOP EXERCISES

Test your plan and your people in a simulated, low-risk incident.

Even the best plan fails without practice. A tabletop exercise puts your teams and plans to the test in a simulated, low-risk environment that challenges assumptions, sharpens response and reveals hidden gaps in your incident response playbook.

TEST READINESS. EXPOSE GAPS. BUILD CONFIDENCE.

WHY DIGITALERA

Threat-realistic scenarios

Simulations reflect real attacker behavior in your sector.

Multi-tier facilitation

Adapted for technical teams, executives or both.

Expert-led insights

Facilitators with hands-on incident response experience.

Post-exercise roadmap

Findings become prioritized next steps for improvement.

WHAT YOU CAN EXPECT

- A real-world evaluation of your incident response
- Gaps identified across people, process and tools
- Actionable improvements for faster recovery
- Stronger coordination between teams
- Greater organizational confidence and readiness

WHAT YOU RECEIVE

- ✓ Scenario built for you
- ✓ Facilitated exercise session
- ✓ After-action report
- ✓ Prioritized next steps

How it's scoped

3 formats: Standard (1 scenario), Advanced (multiple scenarios, deeper analysis) and Executive (board-level).

Right fit if you have an IR plan nobody has rehearsed, or need executive, legal, IT and security decisions aligned.

Something else first if you don't have a plan yet (start with Plan Development) or you're under attack now (call the emergency line).
