SKY ROCKET by DIGITALERA

YOUR CYBERSECURITY PROGRAM

# CYBER MATURITY ASSESSMENT

**8 weeks · NIST CSF · a certified consultant**

THE CONFIDENCE STANDARD · INSIGHT PILLAR, STEP 1

## Know exactly where you stand. Then move in the right order.

**01 ASSESS · YOU ARE HERE** | 02 PRIORITIZE | 03 IMPLEMENT | 04 OPERATE

*Starting at stage 1 doesn't commit you to all 4.*

8 weeks, a certified consultant and weekly working sessions. We benchmark your program against the NIST Cybersecurity Framework, then hand you a maturity score and tier, a ranked gap list with owners and effort attached, and a roadmap sequenced so the first dollar removes the most risk.

1 – 2 — 3 – 4 – 5 — 6 – 7 — 8

**Baseline**
**Weeks 1 to 2**
Pre-assessment across policy, assets, access control, response readiness and governance.

**Deep dive**
**Weeks 3 to 5**
Domain-by-domain NIST CSF review, with weekly sessions that test findings against how you actually operate.

**Score and sequence**
**Weeks 6 to 7**
Maturity scoring, gap ranking with owner and effort, and a roadmap sequenced by risk removed per dollar.

**Readout**
**Week 8**
Findings presented to your leadership by the consultant who did the work. You keep everything.

Led by a named, certified consultant: CISSP · CISM · CRISC · CCISO · PMP · ITIL 4 · ISO 27001 Lead Implementer

### What we assess

- Governance and policy
- Incident response and recovery
- Controls and access management
- Regulatory compliance
- Asset inventory and risk
- Physical and environmental

Mapped to HIPAA, PCI DSS, ISO 27001 and NIST. **Includes the physical layer most assessments skip.**

### Score, then tier

**Partial**
Security happens when someone remembers.

**Risk-informed**
Policies on paper, tools partly configured.

**Repeatable**
Documented, followed and measured.

**Adaptive**
The program adapts to its own data.

### What you keep

**Maturity score and tier**
Your NIST CSF position, built to be re-scored and shown as a trend.

**Ranked gap register**
Every gap with owner, effort and risk removed attached.

**Sequenced roadmap**
First, next and later, written to survive a board or insurer review.

**Fixed price** by organization size and scope. Everything is yours, with or without us.

**Right fit if** a board, insurer, auditor or large client is about to ask how mature your program is.

**Something else first if** you're mid-incident (call the emergency line), suspect a compromise (Compromise Assessment), or already have a current assessment (bring it).
